

NORTH IOWA FUTURE LEADERS

Leadership North Iowa & YIELD
Class of 2023

ASSOCIATION OF CHAMBER OF COMMERCE EXECUTIVES
CHAMBER OF THE YEAR

LEADERSHIP NORTH IOWA

The Chamber of Commerce has provided leadership training for up-and-coming business people in North Iowa for the past 41 years. *Leadership North Iowa (LNI)* provides skill development and participants in the program connect with well-established business leaders to explore best practices and gain meaningful advice.

First and foremost, this program exposes participants to all North Iowa has to offer. At the same time, the Chamber's goal is to engage *Leadership North Iowa* participants and alumni—to connect them to the community and to each other. *LNI* graduates are high-potential prospects who are well-poised to play a more prominent role in the community.

This can and does take many forms. For some, it may be the call to action to run for elective office. For others, participation may ignite the desire to seek an appointment to local government boards and commissions. It may provide the foundation to volunteer at a church or service club. It might even help people to assert themselves more in their place of work. Whichever direction our alumni choose to go, *Leadership North Iowa* is often credited as the catalyst for inspiring participants to seek active involvement in causes they care about.

COMMUNITY IMPACT PROJECT

The *Leadership North Iowa* program encourages participants to engage in servant leadership, focusing on the well-being of people and the communities to which they belong. As a part of the program, the *LNI* cohort chooses a project for community betterment and sees it through to completion, often extending past graduation from the program. Teamwork and dedication are important qualities fostered in the program, and the activities they choose as their class project often encourage their fellow citizens to spend more time in active connection.

Addressing Food Insecurity in North Iowa

The 2023 *Leadership North Iowa* students selected a community impact project focused on food insecurity in North Iowa. The group was approached by a new non-profit organization, North Iowa Mutual Aid, to assist with a community fridge program. The students met for weeks discussing how a community fridge would work, collecting input from area partners, researching best practices, and fundraising. Their original plan to have a separate, 24-hour structure to house a fridge, shifted mid-session to focus on a centralized indoor location at an existing business. Many great conversations took place around the community and the group was able to secure a location for the fridge at Prairie Ridge's downtown location.

The LNI group prepared a list of contacts, information, and best practices for the North Iowa Mutual Aid staff and volunteers to continue their mission to add community fridges in North Iowa. The funds raised by the group were used to purchase the fridge at Prairie Ridge and funds were also distributed to two well-known local organizations who work in reducing food insecurity – Community Kitchen of North Iowa and Hawkeye Harvest Food Bank.

Thank you to the following businesses for their sponsorship of the project:

Chevron Renewable Energy Group, Clear Lake Bank & Trust, CURRIES, First Citizens Bank, First Security Bank, and Holiday Inn Express & Suites - Mason City.

YIELD Youth Investing Energy in Leadership Development

YIELD is modeled after the **Leadership North Iowa** program. The acronym stands for Youth Investing Energy in Leadership Development. In 2003, the Chamber partnered with the Mason City Youth Task Force to develop leadership skills in promising young adults by forging a connection between youth and the business community. Local business has a huge stake in area youth as future workers and leaders.

The class is comprised of high school juniors from Mason City High School, Newman Catholic High School, North Iowa Christian School, and the Alternative High School. Chamber members generously share their knowledge and resources to serve as speakers at **YIELD** sessions. The course consists of 10 modules and each class selects and completes a Community Impact Project. Examples of Community Impact Projects include planting fruit trees in Mason City's flood plains, making fleece blankets for children in need, and renovating the community's beloved Prairie Playground.

In its more than 20 years, the **YIELD** program has become a model for other communities providing leadership training to youth. School administrators report that **YIELD** graduates are among their most successful and engaged students.

COMMUNITY IMPACT PROJECT

Painting the Meredith Willson 'The Music Man' Footbridge

Each year, **YIELD** students complete a Community Impact Project as a graduation requirement. This year's group quickly landed on a project idea to help fill a need in the community. After discussing with the City how the students could help enhance public parks, they learned the famous Footbridge over Willow Creek, connecting River Heights Drive and South Connecticut Avenue, needed a fresh coat of paint.

Iowa weather contributed to missing paint and rust on the popular pedestrian bridge. **YIELD** students spent several October afternoons painting 900 ft of iron guardrail at this historic attraction. Once work started, the group quickly learned while the project wasn't an exceedingly difficult task to complete, the structure was much longer than they had anticipated and it took more time than originally planned. Thanks to the hard work and dedication of the students, Mason City's iconic "The Music Man" Footbridge built in 1940, is looking like new. In November, **YIELD** students were awarded the 2023 City of Mason City's Volunteer Award for the community impact projects completed in recent years, including their work on the footbridge.

"I feel very honored that I had the opportunity to do this because it's such a special part of Mason City and it's just a really important part of our history, and I feel honored that I could help restore it." - Claire Sampson, 2023 **YIELD** Student
